This directory includes all providers that have active privileges at Owensboro Health facilities and all Owensboro Health providers.

Our Administrative team wants to be proactive in identifying physicians in training or others who are currently in practice but might have ties and/or interest in practicing in our communities. Our physicians are our best recruiters of other quality physicians. As such, we are writing to ask for your help in identifying anyone you might know who may have an interest in practicing medicine in western Kentucky.

Our goal is to bring more talented, compassionate physicians to the communities we serve. To do so, we need to initiate conversations early with medical students, residents and fellows. We are open to explore an employed option with these physicians or help connect them with community physicians if they prefer a private practice opportunity.

If you are aware of a potential candidate now or in the future, please have them contact our Director of Physician Recruitment and Retention, Mitchell Sims.

Email: Mitchell.Sims@OwensboroHealth.org

Thank you for your assistance in identifying and recruiting high quality physicians to our community. And as always, thank you for providing quality care as we heal the sick and improve the health of the communities we serve.

Sincerely,
