|---------------------------------|--------|
| Facility                        | Nation |
| 71.4                            | 64.6   |

## Regional Rehabilitation Center

### Orthopedic Rehabilitation

Orthopedic injury or conditions can take on many forms; some require surgical repair or replacement and others require less invasive treatments. Some conditions are a result of a major trauma while others are chronic. At the Owensboro Health Regional Rehabilitation Center the goal for patients suffering from these conditions is to promote maximum function and independence. The team of providers at the Owensboro Health Regional Rehabilitation Center encourages all survivors to begin rehabilitation as soon as their physician feels they are ready.

### Special Services Available for Patients

- Balance and mobility problems are common in patients following treatment or surgery for an orthopedic or amputation condition. The NeuroCom System Balance Master is available to assist therapists in assessing and treating these problems. This equipment represents the most advanced balance and mobility assessment and treatment technology available.
- Your equipment needs will be assessed and met before leaving the Center.

### By The Numbers FY22:

| Orthopedic Conditions | Patients Treated | Average Age | Average LOS (days) | Average # Therapy Hours per day | Discharge Home/Community |
|-----------------------|------------------|-------------|--------------------|---------------------------------|--------------------------|
| Fractures             | 47               | 70          | 11.4               | 3.0                             | 97.9%                    |
| Replacements          | 9                | 68          | 10.7               | 3.0                             | 100%                     |
| Amputations           | 16               | 63          | 13.6               | 3.0                             | 87.5%                    |
| Other Orthopedic      | 33               | 71          | 11.8               | 3.0                             | 84.8%                    |
