Regional Rehabilitation Center

Pulmonary Rehabilitation

The Owensboro Health Pulmonary Rehab Program serves patients with chronic bronchitis, emphysema, asthma, pulmonary fibrosis, lung cancer, thoracic surgery and other disorders that compromise respiratory function.

The goal is to maximize each patient’s potential, encourage independence and an active lifestyle, and address each patient’s physical, social and emotional needs.

Special Services Available for Patients

- Monitored treatment tailored to each individual patient.
- A comprehensive team approach.
- Evidence based evaluation and treatment protocols specific to this population including six minute walk test.
- Education on symptom management and energy conservation.
- Biodex Elliptical Cycle.
- SciFit Upper Body Exerciser.
